

Quality Policy

"To provide Products and Services that meets or exceeds our customers' expectations"

We strive to continuously improve our Business System by:

- Adapting to changing and expanding technologies and markets
- Investing in team members and increasing their knowledge through continuous training and development
- Distinguishing our customer service from the competition
- Delivering high quality and reliable products that meet the requirements
- Maintaining an effective quality management system
- Measuring and evaluating our performance against company requirements, goals and industry standards
- Actively involving team members in improving our business

 Vadim Radunsky President Smiths Connectors North America	 Douglas McCormack Director of Quality Hypertronics & SCM	 Terry Mohr Director of Quality Sabritec & SCM
